

Who is cycling-granny ?

Cycling-grannies name is Brigitte Kleine. Her family is living at the city of Bad Salzuflen, Germany, Europe. Bad Salzuflen is approximately 100 km south of Hanover, 300 km south of Hamburg and approximately 600 km north of Munich.

Cycling-granny got 2 daughters and 3 grandchildren who are 10, 7 and 6 years old. They are called Celine, Nick and Hanna.

That´s our lovely granny Brigitte Kleine who will start to cycle in 2007 at the age of 60 for 10 years around the globe. Apart FROM OUR PARENTS SHE IS THE MOST PRECIOUS TREASURE we got. We are managing her website. On each page at the internet grannies story is written in german and english. Our granny will travel around the world by bicycle. She will start in Rome, Europe. Granny Brigitte is 60 years old when she´ll start. In 2005 she had cycled 1.900 km through Germany from the middle into the deepest south.

The company of „Patria“ (www.patria.net) sponsored a bicycle to her for the big world cycle tour. Many companies and private people in Germany are supporting her with usefull items. Her bicycle is called „Benne“ and is her most important travelmate. She

always needs to look after it and take it with her everywhere, even into the rooms where she´s staying, please keep this in mind when our granny needs a place to stay. On her homepage under „press and public relations“ you can find newspaper reports about her tour over Germany. When she is on her tour TV and papers are invited to report about cycling-grannies world tour and you dear readers please tell everybody about it.

Granny wants absolutely learn to know the ordinary people of your country and also meet leaders in politics, culture and religion of your cities and towns.

Our granny is not a simple tourist who is just on holiday. She wants to learn to know your country from the perspective of the people of the country she is travelling through. She herself is also just an ordinary, modest and normal senior, nor rich neither very special. Her profession was a printerform maker. Which is today called media preparer. She also worked in an office and earlier at an Kindergarten. Our lovely granny will travel only with her cycle luggage and camping equipment, therefore she is dependend on the hospitality of the people she´ll meet. She surely will need to ask people for help, for a bed or water and food. On her worldtour our granny is asking everybody for usefull hints and support for her project. She will be dependend on the help of many people. We as her grandchildren ask the people to help and support our granny. Whenever she´ll cross borders we ask the officials for help. She´ll need permits for long term stays in your country because she can´t be quick with her bicycle. We are asking for patience when she wont understand the language.

This bicycle world tour is a life task for her based on a long term plan. She needs to be healthy during the tour.

Please help her if she´ll need medicine or medical surgery.

She wants intentionally experience the fascinating world around her and not be fixed on a certain goal. She wants to travel slow to find her own speed rhythm to experience the world km by km. For many years she will live on her cycle luggage keeping herself ecologically friendly free of superfluos things of everydaylife. She will cycle with enough time around the world, supporting the world, for the freedom of all people, for the preservation of nature, for global nations agreement, for humanity, for global peace. Please help her by fullfilling her agenda.

We as her 3 grandchildren are loving our granny so much and would like to hug her after her worldtour. We would like to thank you in advance for your support.

Celine
